

EAPRIL Conference 2014

Where Practice and Research on Learning and Development Meet

Cyprus, Nicosia
November 25 – 28, 2014

EAPRIL is proud to announce that this year the 9th EAPRIL Conference will be organised in Nicosia, Cyprus, with the support of the University of Cyprus and of the European Association of Erasmus Coordinators. EAPRIL is happy to welcome all practitioners, practitioner-researchers and all interested in the fields of education, learning and instruction, and learning and development at the 5* Hilton Cyprus Hotel.

As EAPRIL is constantly on the move and trying to be as innovative and dynamic as possible, some new features are planned for the 2014 Conference. **What's new?**

NEW this year: You have probably noticed it yourself. EAPRIL is growing and that shows at the conference. To preserve our high level of interaction, our various networking activities, and to avoid too many parallel sessions in one timeslot, the Executive Board decided to extend the conference with **one day**. More specially, the conference will start this year on Tuesday November 25. As previous year, optional school visits will precede the official conference programme on Tuesday morning.

NEW this year: The extension of the conference with one day offers participants an **extra keynote speaker** and more networking opportunities throughout the conference. The registration fee remains to be the same as previous year.

NEW this year: As we want to increase the interactivity level at the conference, a new conference format was developed, '**Flipping the session**'. In this 'Flipping the session' format, a short video (preferably) or narrated slides (max. 5 minutes) are prepared beforehand and published on the conference website for delegates to view before and during the conference. During the 30 minutes face-to-face discussions, the presenter is given the full 30 minutes to discuss his/her research. As delegates have seen the video or slides beforehand, the discussion may start sooner and can reach a more profound level.

NEW this year: On November 25 and 26, a **parallel L&D programme** will be scheduled. This new programme is affiliated to EAPRIL's Cloud 5 and will focus on L&D issues in companies and corporate organisations. Both research sessions by L&D researchers and cases by L&D practitioners will be programmed, next to a specific keynote speaker and various networking opportunities for this field of research.

Do not forget to apply for our **3rd Best Research & Practice Project Award**. Applications are welcomed by e-mail? Doubting whether your project applies? Read all about the experiences of the winners of 2013 in our [interview](#) with them.

Submission Deadlines

'Before Summer' Submission Deadline: **June 12, 2014**

'After Summer' Submission Deadline: **September 17, 2014**
